

Triple Crown Valpo Announces Second Building!

We are thrilled to announce that we will be starting construction on a second building by the end of the summer! This 5,600 square foot building will be located across the parking lot from our current building. This second building will house an infield with 60-foot base paths, a hitting cage with both a baseball and softball pitching machine, and a larger pitching lane for our baseball players. By adding this new building, we will not only double in size, but we will now be able to accommodate virtually all the training needs of our players! For team practices, we will be renting each building respectively by the hour. Teams can choose to pay as they go, or buy a package of hours at a discounted rate. We are currently taking reservations for winter practices, so call today to get the spot you want! Look for our Grand Re-Opening Celebration this fall.
